SUMMER INTERNSHIP PROGRAM

Seattle Genetics, Inc. is an emerging multi-product, global biotechnology company that develops and commercializes transformative therapies targeting cancer to make a meaningful difference in people's lives.

For more information about Seattle Genetics, please visit seattlegenetics.com

The Seattle Genetics internship program runs for 10 to 12 weeks during the summer. We offer paid internships to students who are pursuing the following degrees:

- Bachelor of Arts or Science
- Masters degrees in various fields of study
- PhD degrees in various fields of study, and PharmD

Check our job search website — seattlegenetics.com/careers/job-opportunities — during February and March and search with keyword "Summer Intern" to find opportunities and apply! Interns will be selected in early April and begin their programs in the May to June timeframe.

The Seattle Genetics internship program provides opportunities for on-the-job training in various departments throughout the entire organization. Our environment is an engaging business-oriented educational experience. Our internship program offers an opportunity to gain practical experience through educational and social events, while helping us pursue our Passion for Patients.

"My lab team members were very welcoming and helpful, and it was exciting to be conducting impactful research and sharing my progress with the rest of the team. Seattle Genetics is a wonderful place to intern!"

Ankita Joshi

Department of Bioengineering
University of Washington
Class of 2019
